AUG 4 1969

CURRENT SERIAL RECORDS

Release:

July 24, 1969

3:00 P.M. EDT

ALL STOCKS LARGER EXCEPT CORN AND RYE

Despite a decline in stocks of corn, total stocks of feed grains (corn, oats, barley and sorghum grain) were up a bit from a year earlier to 79.0 million tons. Old crop carryover of all wheat was up 50 percent from last year. The increase in all wheat includes 69 percent more durum. Record soybean stocks were 57 percent greater than on July 1, 1968. Rye stocks were down 12 percent from a year earlier, but flaxseed holdings were up 42 percent.

Old crop carryover of all wheat on July 1 totaled 811 million bushels, 50 percent more than a year earlier and the largest carryover stocks since July 1965. Farm holdings at 327 million bushels were record large for the date and 42 percent above a year earlier. Off-farm stocks of 484 million bushels were 57 percent above the previous year. July 1 stocks in all positions indicate disappearance during the crop year -- July 1, 1968 to June 30, 1969 -- of 1,299 million bushels compared with 1,408 million bushels the previous year and 1,422 million two years earlier. Of the total July wheat stocks, the Commodity Credit Corporation owned 159 million bushels, and had loans outstanding on another 465 million.

Old crop durum wheat stocks in all storage positions on July 1 totaled 41.1 million bushels -- 69 percent above a year earlier and the largest carryover since July 1966. Farm stocks at 29.1 million bushels were 60 percent greater than last year. Off-farm stocks were nearly double those of a year earlier and 13 percent above two years ago. July stocks indicate a disappearance of 80.9 million bushels during the crop year ended June 30, 1969, compared with 71.0 million a year earlier.

Old crop rye stocks in all storage positions on July 1 were 15.9 million bushels, 12 percent less than a year earlier, and 15 percent less than two years ago. Farm stocks of 2.0 million bushels were down 47 percent from last year and off-farm holdings at 13.9 million bushels, were down 2 percent. Indicated disappearance during the April-June quarter was 4.1 million bushels compared with 5.2 million in the year-earlier period. Of the total rye stocks on July 1, the Commodity Credit Corporation owned nearly 11 million bushels, and CCC loans were outstanding on an additional 0.8 million bushels.

UNITED STATES DEPARTMENT OF AGRICULTURE

Statistical Reporting Service

Gr Lg 11-1 (7-69)

Crop Reporting Board

Washington, D. C. 20250

Corn in all storage positions on July 1 totaled 2,053 million bushels, 6 percent less than a year earlier, but 18 percent more than on July 1, 1967. Off-farm stocks of 582 million bushels were 10 percent above a year earlier, but farm holdings at 1,472 million bushels were down 11 percent. Indicated disappearance from all positions during the April-June quarter was 958 million bushels compared with 1,028 million bushels a year earlier. Of the total July 1 corn stocks, the Commodity Credit Corporation owned 269 million bushels, and had loans outstanding on an additional 686 million bushels.

Old crop oat carryover stocks in all positions on July 1 totaled 370 million bushels, up sharply from 273 million last year and 270 million bushels on July 1, 1967. Off-farm stocks totaled 99 million bushels compared to 67 million last year. Farm holdings of nearly 272 million bushels were up 32 percent from a year earlier. Disappearance during the April-June quarter was 177 million bushels, compared with a disappearance of 173 million a year earlier. Of the total oat stocks the Commodity Credit Corporation owned 54 million bushels, and had loans outstanding on another 105 million bushels.

Old crop barley holdings in all storage positions amounted to 198 million bushels on July 1, 1969. This is 44 percent above a year earlier and highest for the date. Of total barley stocks, the Commodity Credit Corporation owned nearly 19 million bushels, and CCC loans were outstanding on another 98 million bushels. Off-farm storages totaled 85 million bushels, 28 percent more than a year earlier. Farm stocks, at nearly 113 million bushels, were nearly three-fifths more than a year earlier. North Dakota and Minnesota accounted for about three-fourths of the U.S. farm stocks. Total disappearance during the April-June quarter, at 79 million bushels, was 2 million less than a year earlier.

Sorghum grain stored in all positions on July 1 totaled 387 million bushels, 5 percent above a year earlier, and 15 percent above July 1, 1967. Off-farm stocks totaled 303 million bushels, 9 percent higher than a year ago, but farm stocks were 7 percent below July 1, 1968. The April-June disappearance was 157 million bushels, compared with 149 million a year earlier. Of the total sorghum grain stocks, 193 million bushels were owned by the Commodity Credit Corporation, and CCC loans were outstanding on an additional 97 million bushels.

OFFICIAL BUSINESS

(Continued from page 2)

Soybean stocks in all storage positions on July 1 totaled a record 448 million bushels, 57 percent above a year earlier. Off-farm stocks at 314 million bushels were nearly double a year earlier, and farm stocks at 134 million bushels were 11 percent larger. Of the total soybean stocks, the Commodity Credit Corporation owned 53 million bushels, and had outstanding loans on 313 million bushels more.

July 1 stocks indicate a disappearance during the period September 1968-June 1969 of 798 million bushels from a supply of 1,246 million bushels (carryover of 166 million bushels plus 1968 production of 1,080 million bushels). During the period 505 million bushels were processed for oil and 257 million bushels were exported. Soybeans used for seed and feed are expected to total about 50 million bushels.

Old crop flaxseed stocks in all positions on July 1, 1969 were 9.9 million bushels--2.9 million bushels, or 42 percent above a year earlier. Off-farm stocks, nearly four-fifths of the total, increased 2.1 million bushels. Farm stocks increased about 0.8 million bushels. CCC owned 6.2 million bushels of the stocks and had outstanding loans on 1.5 million more bushels. July 1 holdings indicate a disappearance of 24.3 million bushels for the year ended June 30 from a supply of 34.2 million bushels. For the period, crushings are estimated at 14.5 million bushels, and exports at 9.7 million bushels. About 1.9 million bushels were used to seed the 1969 crop.
